Nouvelle- Aquitaine Regional  
Tourism Board

The largest region in France, Nouvelle-Aquitaine is as diverse as it is surprising. Nature, open spaces, world-famous vineyards, dynamic towns, legendary beaches, exceptional cultural and gastronomic heritage... whatever your holiday style, there is a destination made for you. All these treasures are what make the region the number one destination for French tourists and an unmissable attraction for international travellers who want to experience everything the "French art of living" has to offer.

From Pays Basque to Bordeaux, from Cognac to the Loire Valley foothills, through Bergerac and Périgord Pourpre (Dordogne Valley), Jurançon (Pay-Pyrénées) or the Landes d'Armagnac, each destination offers an infinite variety of flavours and wine and spirit-related activities. Wine-lovers can enjoy a whole range of dedicated tourist circuits by travelling along one of the six "Bordeaux Wine Routes". They can also walk and cycle in the vineyards of the Pyrenean foothills or the Ré and Oléron Islands. Others will prefer to take a boat trip up the Lot and Garonne Valleys, as well as the Charente Valley, to discover its famous "liqueur of the gods" (another name for Cognac given by the famous writer V. Hugo). Stop by the Cité du Vin (Bordeaux) to improve your knowledge of the winegrowing world and enjoy a tasting, with a 360-degree view of the Garonne. You can also try your hand as an apprentice grape-picker or oenologist by attending the many workshops and masterclasses offered by the various Châteaux, Cellars and wine estates. The more adventurous among you can discover the many mysteries of the vines with an Escape Game or a memorable treasure hunt. A particularly good way to do this is with the free mobile app Terra Aventura, which has already won over 700,000 French and English-speaking players.

Our region is founded on a communal, festive, welcoming and gastronomic spirit. A "quality of life" spirit that's also evident in our gastronomy and our art of dining. Nouvelle-Aquitaine is THE unmissable destination for that special French art of living, THE destination for authenticity and new experiences, THE destination for an innovative, sustainable and forward-looking tourism offering.

So we look forward to seeing you soon in Nouvelle-Aquitaine.

# Bordeaux Wine Routes in Graves & Sauternes

A journey into the origins of the Wines of Bordeaux on the Graves and Sauternes Bordeaux Wine Trails. It was in the Graves appellation that the first ever Bordeaux vines were planted over 2000 years ago.

Today, Bordeaux Wine Route in Graves and Sauternes includes 6 great appellations: Graves et Graves Supérieures, Pessac-Léognan, Barsac, Sauternes et Cérons. The name of this wine route comes from the region's gravelly, pebbly soil which is perfect for grape growing.

# Bordeaux Wine Routes in Saint-Emilion, Pomerol, Fronsac

At the confluence of three rivers (the Dordogne, the Isle and the Dronne), the Libournais is an area where you can find UNESCO listed wine-producing areas, an old English fortified town (Libourne) and the largest monolithic church in Europe (Saint-Emilion): a real feast for any lovers of wine, cultural heritage and nature! Saint-Emilion is renowned for its wines as much as the village itself, dominating the Dordogne valley from its hilltop position. This vi-

neyard became the first vineyard in the world to be awarded the title of 'Cultural Landscape' by UNESCO on the World Heritage List in 1999 as a historical landscape that remains intact and continues as a working activity.

Nearby Pomerol is much smaller but shares its Roman history with that of St Emilion with the tiny appellation of Lalande de Pomerol at its northern tip. A stone's throw from Libourne, the principal town of the region, and

the convergence of the rivers Dordogne and l'Isle, lies Fronsac with two main sectors: Fronsac and Canon Fronsac.

15 appellations - 172 establishments certified « Vignobles et Découvertes® » in this area : 96 wine cellars, 31 accommodation, 15 restaurants and bars, 3 cultural or natural heritage sites, 2 tourist offices, 2 DMC, 12 sports, leisure or wellness activities, 11 events.

### MAGICAL TIME AT CHÂTEAU DE LA RIVIÈRE

A superb stone fort, renovated by Viollet le Duc, the Château de la Rivière dominates the Dordogne valley and 65.5 hectares of vineyards. Its 8 hectares of underground cellars are an ideal setting for maturing the wines it produces. The château's grounds are open to all. The five Gîtes de France Bacchus 4 épis B&B rooms were awarded the gold "Best Of" award for wine tourism in 2007, in the "Accommodation" category. Ask for the "Visite Prestige", which finishes with a tasting of 3 wines in the underground wine cellars, which has a natural spring and is lit by candles (25€/per 10 people max.), or the escape-game in the underground quarries. It's magic! Open all year.

# Bordeaux Wine Routes in Entre-deux-Mers

Locally known as very welcoming, lots of wineries from this region are family owned and run with generosity... Entre-Deux-Mers takes its name from its location - the region is nestled between the Garonne and the Dordogne rivers, and lies to the south and east of Bordeaux.

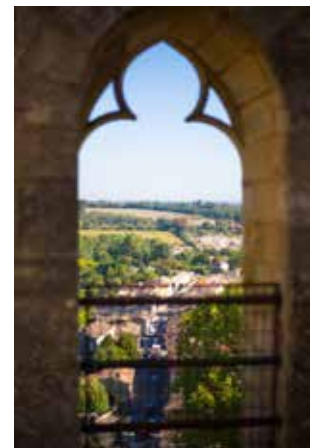

The region has a long wine producing history; the earliest vines were planted by the ancient Romans, 2000 years ago. Wine produced by the Benedictine monks in the middle ages, initially for religious purposes, established Entre deux Mers reputation; pilgrims on the route to Santiago de Compostela resting at the Abbey would be offered the sweet

white wines produced by the monks. The remains of their 11c Abbey La Sauve Majeure have been declared a protected site by UNESCO.

Hit the bicycle path 'Voie Verte Roger Lapébie' to the Entre-Deux-Mers wine road History buffs will feel right at home here: bastide towns, Romanesque churches, fortified mills and ancient villages are dotted all over this rolling landscape dear to the heart of the writer François Mauriac and the artist Henri de Toulouse-Lautrec.

rants and bars, 7 cultural or natural heritage sites, 3 tourist offices, 1 DMC, 2 sports, leisure or wellness activities, 6 events.

For about fifteen years the Oléron vineyard has been largely converted to the production of local wines with the constant concern to improve quality and to answer to the customers' taste request. The winegrowers have engaged themselves in selecting the most noble grape varieties, selecting

the better adapted graft doors, optimising the implantation, an acquisition of new know-how in close collaboration between wine technicians and oenologists, an improved farming practices.

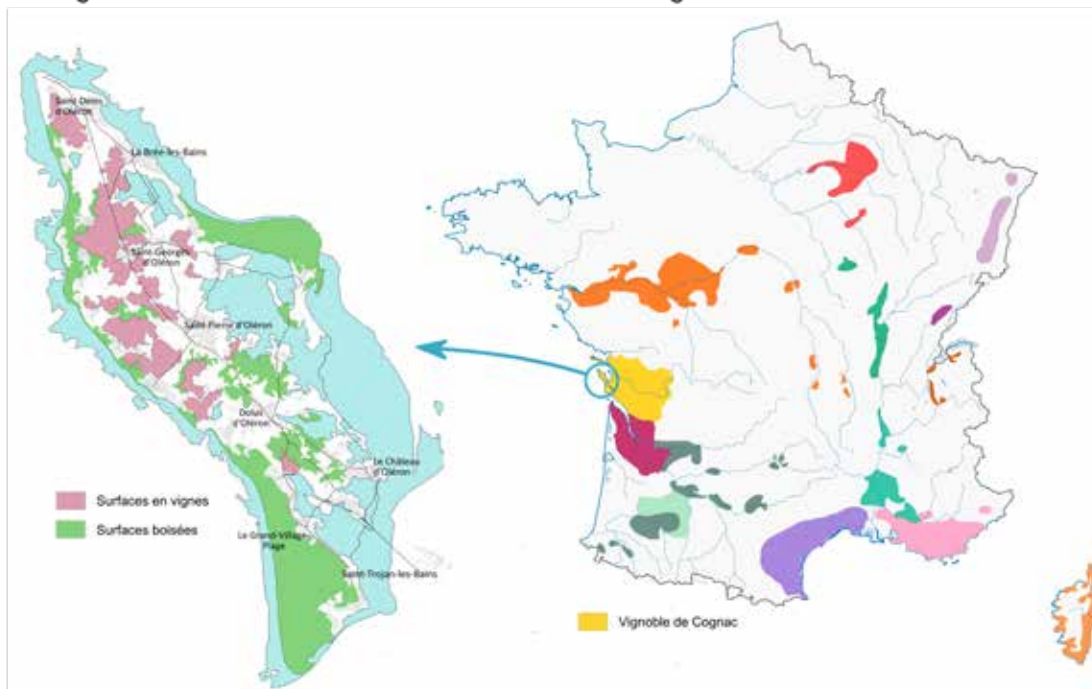

The Oléron wines are made out of :sauvignon, colombar and chardonnay for white wines, cabernet franc, cabernet sauvignon and merlot for reds and rosés, chardonnay for

sparkling wines using traditional methods

The 11 winemakers partners signed a quality charter based upon common values: «the quality charter of the winemakers of Oléron Island». Beyond the respect of the requirements of the brand in terms of customer reception, this document engages them in their agricultural and commercial practices.

## CAVES DES VIGNERONS D'OLÉRON

Grouped within the island's cooperative cellar, the Oleron winegrowers produce wines, Pineaux and Cognacs 100% Oleron made. The AGRICONFIANCE® certification in local wine guarantees the tracability of production and the wine-growing follow-up. Taste, style and aromas personalize each wine variety.

Today, the cellar gathers fifty cooperative winegrowers whose vines are located from north to south of the island on a wide variety of soils. It is a wide range of aromas that, once gathered in the cellars, makes it possible to prepare a wide choice of expressive wines, Pineaux des Charentes and Cognac that are representative of Oleron.

## Pays de Bergerac

A proud city standing on the banks of the Dordogne, with majestic barges that bring the river to life every day, a beautiful Renaissance city centre and ... the ghost of Cyrano who never stuck his big nose in here! That's Bergerac. It is surrounded by undulating vineyards, sumptuous castles and old farmhouses that are still full of life. Welcome to the Pays de Bergerac, which has retained a special feel and way of life.

A little tour of Bergerac ... In the labyrinth of streets and squares, each one as charming as the next, look upwards to admire half-timbering, lancet windows, intricate

doors ... and don't forget to take a stroll along the quays.

And what about the wines of Bergerac - Duras? At the Maison des Vins you'll find out everything you want to know. The location alone is worth the detour: a 17th century residence built around a wooden cloister and bricks - the Cloister of the Récollets. Here you will find out everything there is to know about the 17 appellations that make up the wine-growing region of Bergerac - Duras. And your new-found oenological knowledge will be complemented by a tasting with explanations from the House team.

And you'll be happy to know that it's free!

... and all around Bergerac...

The vineyards offer a wonderful range of wines made up of 5 colours and 17 AOC (appellations d'origine contrôlée) and a feast for the senses. Monbazillac, pécharmant, saussignac, robust reds, fruity rosés, sweet whites ... Every tasting will include a range of flavours and aromas, brought to life by passionate winegrowers. Why not enjoy a walk in the vineyards, a rendez-vous in the cool of a cellar or a bite to eat with an accompanying bottle of wine?

### ESCAPE GAME CHÂTEAU DU HAUT PEZAUD

A bottle of wine has been stolen from the Château du Haut-Pezaud. The thief was disturbed while making his escape and hastily hid the bottle in the vineyards. You have 1.5 hours before he comes back to retrieve it. If you manage to find it in time, you can take it with you!

### TERRA AVENTURA DOMAINE DU SIORAC

Terra Aventura is a game that leads you on a discovery of the region's rich and natural heritage, a treasure hunt that takes you on a fun and educational adventure.

In the Bergerac region, the tour of the Domaine du Siorac, the first tour of an independent winemaker, takes you on a discovery of a hidden treasure in the heart of our 29-hectare vineyard, certified organic and accredited as having "High Environmental Value". Our tour, called "Little wine-making problems", is strewn with wine and wine-making themed puzzles to solve, along with puzzles about the importance of biodiversity in the wine-making profession.

In and among the treasure hide Poi'z, little characters with a strong character, in the form of badges to collect. For us, it's Zalambic, the imaginary being that reminds us of the theme of this 2.4 km walk. This small hike is ranked "2 out of 5" for the difficulty of the terrain and the level of the puzzles to solve. Our itinerary is particularly suitable for families but not accessible to strollers.

You access this 100% free activity via a smartphone and it's accessible 365 days a year. To play, just download the app on a smartphone via Google Play or App Store, or get yourself a route map.

## Jurançon

The Jurançon is situated in the Béarn, in the department of the Pyrénées-Atlantiques, between Biarritz and Lourdes, just a few kilometres from the City of Pau.

The wine entered into history with Henri IV. Indeed, in 1553, this future King of France was baptised at the Chateau of Pau with a drop of Jurançon, beginning a royal tradition.

It is one of the few appellations subject to a late harvest, which sometimes occurs when the first snow has fallen. The appellation's festival takes

place from September to December. The typical aromas of the Jurançon wines offer peach, pear and white flowers, vanilla and honey. The colour is a gentle amber. The wines make the perfect accompaniment to foie-gras and smoked salmon, but also to all the specialties of the South West region.

Here you won't find large chateaux to visit but Domaines, the people and small plots to be discovered, nestled in the bends of country lanes.

Nothing but slopes! From the Boule-

vard des Pyrénées in Pau, you have a great view of the Pyrenees - blue or white depending on the season. As the Jurançon wine area is further south than Pau, you really are in the foothills and the views are breathtaking: the Pic du Midi d'Ossau, a cirque planted with vines... Get your walking shoes on! There are a great many hiking circuits on offer, as well as outings on horseback or with snowshoes.

I spent a night in unusual accommodation in the middle of Irene's vines. Producer of organic Jurançon and herbal teas, she loves to welcome guests to this precious and protected natural space that she has created clinging to the side of this breathtaking steep slope.

# OTHER VINEYARDS

Nouvelle-Aquitaine is a land of vineyards. All the areas of the territory leave a place for the vine in their landscape, both for prestigious appellations and for the most confidential, delicious and authentic ones.

Entering the region from the north the red wines of Haut Poitou and the IGP vins de Loire, fragrant and fruity wines welcome you a few miles away from the châteaux of the Loire Valley.

Continuing towards the Corrèze you will be enveloped by the sweetness of the «straw» wine, the authenticity and rusticity of the reds and rosés of the Vézère hillside, produced on a centuries-old vine.

Further south, a cruise on the Garonne and Baïse is the ideal opportunity to discover the robust wines of the côte de Marmandais and Buzet, which perfectly match the local cuisine.

The arrival in the Landes forest brings us to the production area of Armagnac, a spirit blessed by the gods. In the evening a cool glass of

Tursan will be appreciated after a day at the beach.

Near the Spanish border, the Béarn and the Basque Country make it possible to go on long and beautiful hikes in the Pyrenees and to regain your strength by tasting the cheeses of sheep and cows, the black pork meats of Bigorre accompanied by a pretty red from Irouléguay or Madiran.
